## ***2023 Oaks Trustee Candidate***

### **BACKGROUND INFORMATION:**

I received a BS in Systems Science and an MS in Transportation Planning from the Polytechnic Institute of Brooklyn (now part of NYU). My jobs in New York included 7-years at the NYC Department of City Planning. In 1977 I joined the McLean office of Alan M. Voorhees, a nationally known Transportation firm, working on DOT research, traffic signal timing, and Intelligent Transportation Systems (ITS) projects. In 1984 I moved to Broward County, Florida where I developed plans to keep traffic moving during the reconstruction of 20-miles of I-95. We returned to Virginia in 1994, where I presented ITS Training Courses, and developed ITS Architectures for DOTs and Toll Agencies. In 2005 I joined the Dewberry company where my projects included traffic engineering for the I-495 Telegraph Road Interchange, Electronic Toll Collection stations for a segment of the ICC in Maryland, and Variable Message Signs for Phase 2 of the Dulles Rail project. I retired from engineering in 2015.

Starting in 2017 I helped organize community opposition to VDOT's plans for the Fairfax Parkway-Burke Centre Parkway intersection, for which I received a "Best of Braddock" award in 2019. In 2021 I was elected the Oaks Trustee.

## **GOALS AND OBJECTIVES:**

I will continue doing what I've done for the past 2-years. When you tell me about a problem, I will make sure the Conservancy knows about it. I will inform you of issues through my columns in the **Conservator** and hold periodic Neighborhood Council Meetings to listen to your concerns. I will continue my efforts to get Cluster Committees started where they don't exist, because Cluster Committees give you better control of your assessment dollars. And I will work with the Oaks Pool Advisory Group to help the Conservancy include fun and accessibility features for you and your children.

## **BURKE CENTRE ACTIVITIES:**

<b>BC Group Name/Activity</b>	<b>From</b>	<b>To</b>
Oaks Trustee	3/21	3/23
